PROFESSIONAL SUMMARY

Full-stack developer with experience building responsive web applications and mobile systems using modern frameworks and database services. Proven ability to collaborate with developers, designers, and project managers to deliver functional user-focused software solutions. Quick to adapt, eager to learn, and committed to continuous improvement, with strong problem-solving skills and attention to detail.

EXPERIENCE

Intern at Miller Solutions Development Inc.

Nov 2025 - Feb 2026

- Trained in basic full stack development with a focus on backend development.
- Developed and maintained web application modules supporting employee management, employee accountability tracking, announcements and notifications.
- Collaborated with developers, designers, and stakeholders to gather requirements and deliver features.
- Participated in debugging, testing, and performance optimization of application components.
- Assisted in UI implementation and feature integration using modern frontend frameworks.
- Maintained source code using Git version control and followed software development best practices.
- Contributed to technical discussions during development cycles.

PROJECT EXPERIENCE

JustInns

March 2026

- **Tech stacks used:** PHP, HTML, CSS, MySQL, Git
- Developed a full-stack accommodation booking platform with user authentication, reservation management, and property management features.
- Developed a scalable database-driven backend and responsive frontend to streamline booking and accommodation management.

Alden Design and Services - Project Management System

Apr 2025 - Oct 2025

- **Tech stacks used:** React JS, JavaScript, HTML, Tailwind CSS, Supabase, Git, Vercel
- Designed and developed a full-stack project management system for a construction company to streamline project tracking, employee management, and daily business operations.
- Built scalable Model-View-Controller(MVC) architecture with modules for payroll, attendance, procurement, inventory, and client management.

Novelite

Dec 2024

- **Tech stacks used:** Laravel, PHP, CSS, MySQL, Git, Railway
- Built a digital library platform with book browsing, search, collection management, and personalized user account features.
- Built a scalable Model-View-Controller (MVC) architecture with responsive interfaces to provide a seamless experience across desktop and mobile devices.

- **Tech stacks used:** React Native JS, Android Studio, CSS, Supabase, Git
- Built a geolocation-based mobile reporting platform for submitting and tracking sewage-related concerns with map visualization.
- Implemented location-aware reporting and proximity-based filtering to help users discover nearby reports.
- Designed a scalable MVC architecture with integrated mapping services and cloud-based data management.

EDUCATION

Bachelor of Science in Information Technology Silliman University College of Computer Studies	Aug 2022 - May 2026
Silliman University Senior High School STEAM Strand Graduated with High Honors	Aug 2020 - May 2022

CERTIFICATIONS

- February 2026 - Miller Software Development Completion Certificate
- July 2025 - TOPCIT Level 2 Certificate (Valid until 2027)

SKILLS

- **Programming Languages:** C, JavaScript, TypeScript, PHP, C++, Java
- **Frontend Development:** HTML, CSS, Tailwind CSS, React, Vue.js, Nuxt.js, and Laravel Blade.
- **Backend Development:** REST APIs, Laravel, Authentication, Authorization, Session-Based Authentication, and Password Hashing using bcrypt.
- **Database Management:** MySQL, Supabase, Firebase, Neon, IBM DB2, and MongoDB.
- **Software Architecture and Development:** MVC Architecture, Clean Architecture, CRUD Operations, Object-Oriented Programming (OOP), and SDLC.
- **Developer Tools:** Git, GitHub, VS Code, Apache NetBeans, Docker, and Android Studio.
- **Deployment Tools:** Vercel, Railway, Render, and Expo.
- **Design and Productivity Tools:** Figma, Lucidchart, Canva, Adobe Photoshop, and Photopea
- **AI-Assisted Tools:** ChatGPT, Github Copilot, Antigravity Cursor, and Claude.
- **Soft Skills:** Problem Solving, Adaptability, Attention to Detail, Punctual, and Diligent.
- **Languages:** English (Proficient), Cebuano or Bisaya (Native), and Tagalog (Native).
